Our Process

Pressure Washing & Painting

AQP will pressure wash, prime and paint the following structures on the property

Structure Name	Square Feet of Structure	Quantity	Total Square Feet of Structures
Building Style 1	**3854**	**3**	**11,562**
Building Style 2	**2729**	**5**	**13,645**
Building Style 3	**3683**	**3**	**11,049**
Building Style 4	**3017**	**1**	**3017**
Building Style 5	**35,280**	**1**	**35,280**
Clubhouse	**2234**	**1**	**2234**

(see below for continued - products)

Products

AQP will use the following products during the pressure washing, priming and painting of property

Name	Product Description
2" White Tape	To preserve different materials integrity and to create straight line patterns, AQP will use tape where necessary. Also to cover up lights, fire system structures and electrical meter area
9" Paper	General purpose paper is specially designed for water-based products such as latex, latex enamel paint, drywall texturing and plaster
Chlorine	Pressure wash the complete exterior of all buildings to be repainted with an emphasis on removing chalking substrates, dirt, mold and mildew. AQP will cover vulnerable plants.
Elastomeric Patching	Use to bridge and seal cracks, joints and other openings in masonry substrates
Loxon Conditioner	A high performance chalk sealer and bonding coat for use on a variety of interior and exterior surfaces.
Loxon S1	A single component, high performance, gun-grade, acrylic urethane elastomeric Sealant
Storage	Mobile Mini storage container in order to have a location to store paints, ladders and other items necessary for the repaint
Latitude	Final Topcoat Paint for Stucco and Hardi Siding. The application process consists of spraying to ensure even coverage with proper mils

Wood Repair

No significant wood repair on the property

Stucco Repair

A. For hairline cracks 1/16 inch or less wide — seal with Sherwin-Williams Concrete and Masonry Elastomeric Patching Compound

B. For cracks 1/16-3/5 inch, route the crack open to a uniform size by mechanical methods. Clean out crack with water and allow to completely dry. Seal with Sherwin-Williams Concrete and Masonry Elastomeric Patching Compound (smooth or textured)

C. For cracks deeper than ½ inch or wider than 1/4inch, backer rods should be used to fill the gap and to eliminate three-point adhesions. This may be subject to additional charges.

Included Substrates

Photos

All stucco substrates - walls, ceilings

Entryway Ceilings and Walls

Soffit, Drip Edge, Fascia, Decorative Bands

Previous Work & References

These projects have all been completed by AQP

Hawthorne Groves

"Affordable Quality Painting completed an Apartment Repaint located in Winter Garden Florida called Hawthorn Groves. Affordable completed the project on time and on budget with professionalism and superior quality. A repaint is a very difficult job to complete without complaints from tenants ranging from overspray on tenant property to unprofessional crew members but this was not the case with Affordable. I highly recommend Affordable Quality Painting for any painting or coating project you have…I really wish I could get them to do more scopes of work in addition to painting!"

Kevin Ivey
Winter Park Construction

Middlebrook Farms

"We have had the pleasure of utilizing Affordable Quality Painting for the exterior painting over the past two months. During this period, they have been dependable and have provided exceptional service.We have received only positive feedback from our residents both for their professionalism and quality of work. I can confidently recommend Affordable Quality Painting as a solid and dependable company that provides exceptional service."

Kim Morrison
Property Manager

Serenata Condominiums

"We were so satisfied with the work that was done by AQP that we hired them for additionalwork, such as fencing and decking, and will continue to bring them on for future work."

Association Management Team
Serenata Condominiums
